

Dear Pastor & Church Members,

Families are the foundation for the stability, growth and ultimate success of society. Yet all too often they are not given the tools and resources they need to be successful. "16 Things Kids Can Do, Inc." is a non-profit educational organization here in New York whose mission is to work for the betterment of kids, people and the planet.

In working to fulfill that goal, the organization's founder, Lyle Benjamin, has put together a series of programs designed to educate and empower individuals and families. And as these families strengthen and prosper, they give back to their church, community and country as a result.

The programs cover a wide range of topics, including financial workshops on how money works, how to build for retirement, fund children's education and even build wealth tax-free according to IRS code.

On the legal side, we educate families as to how they can get top-rated legal services including unlimited legal advice on any number of issues, 24/7 emergency legal assistance, document review, will preparation, landlord/tenant, small claims court, estate settlement, financial identity theft protection/restoration and more.

Additionally, the benefits of what we do, our educational programs, are 100% free to individuals and families. We welcome the opportunity for you to meet with our Director, Lyle Benjamin, so he can go over our programs in greater detail and demonstrate how we can be of service to you and your congregation.
